We all need insulin to live. It does an essential job. It allows the glucose in our blood to enter our cells and fuel our bodies. When you have type 2 diabetes, your body still breaks down carbohydrate from your food and drink and turns it into glucose. The pancreas then responds to this by releasing insulin.

consumption of certain types of food. For example, Judaism prescribes a strict set of rules, called Kashrut, regarding what may and may not be eaten, and notably forbidding the mixing of meat with dairy products. Islam has similar laws, dividing foods into haram (forbidden) and halal (permitted). Jains often follow religious directives to observe vegetarianism.
